

Flue details including materials, diameter and calculations in accordance with AS5601-2004 Sec. 5.13 & Appendix H

.....  
 .....  
 .....

**Where appropriate, attach diagrams with this application**

**Design Drawing Detailing**

- Pipe materials, diameters & thickness
- Support details
- Expansion, contraction details
- Protection details (bollards & barriers)
- Location of
  - o Isolation valves
  - o Gas pressure regulators
  - o Sub-meters
- Corrosion protection
- Pressure control and protection
- Appliance flue including materials, diameter, fan size, lengths of rises and laterals, etc.

**Site Plan Detailing**

- Gas pipe work within boundary of property
- Pipe materials, diameters & thickness
- Supply tanks and/or meters
- Depth of cover if buried
- Expansion of contraction details
- Protection details (bollards & barriers)
- Location of
  - o Isolation valves
  - o Gas pressure regulators
  - o Sub-meters
- Corrosion protection
- Pressure control and protection
- Equipment enclosures and ventilation
- Details of any special conditions (eg. Unusual ground conditions, piping in vicinity of high voltage equipment)

**Provide details of components that form part of the gas installation including appliances, regulators, manual shut off valves, pressure relief valves etc**

AGA Approval Number	Component Description	Manufacturer / Brand	Model	Quantity	Consumption M/h	Serial No.

**Please attach any additional supporting information, ensuring all information requested on this form is supplied.**

**I certify that this proposed installation meets the requirements of the  
 GAS ACT 2000 and GAS (SAFETY) REGULATIONS 2002**

Signed:..... Date:...../...../.....  
 Name: .....

**Note: Section 128 of the Gas Act 2000, prescribes a penalty of up to \$5000 for a person making a false or misleading statement or representation.**
