

NEW National requirements

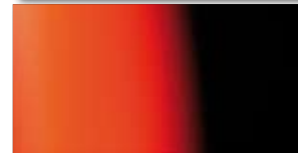

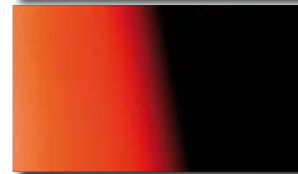

Electrical installations are now governed by a new set of rules. Developed by Standards Australia and industry experts, AS/NZS 3000:2007, *Wiring rules* will become the mandatory electrical safety Standard to be applied in all States and Territories.

Australia's most widely used Standard

Essential for electricians, inspectors and regulators, AS/NZS 3000 specifies electrical installation safety requirements for all premises in Australia. With over 450 pages, it expands coverage on electrical installations, improves safeguards and brings industry requirements in-line with best practice.

NEW WIRING RULES

AS/NZS 3000:2007, Electrical installations

AUSTRALIAN STANDARDS®

Wiring Rules 2007 – bigger, better, clearer

Every day the National Wiring Rules brings safety to our lives. As industry embraces new and innovative technologies, wiring systems are becoming safer, more reliable and cost-effective.

NEW AS/NZS 3000:2007, Electrical installations (known as the Wiring Rules)

Revised after 8 years! The 2007 edition of the Wiring Rules specifies the minimum set of electrical safety rules and requirements for the design, construction and testing of electrical installations. This Standard is critical in protecting life and property against fire and injury from electricity.

Who needs a copy?

Everyone involved in electrical installations:

- > Electrical contractors
- > Design consultants
- > Inspectors and regulators
- > Electrical industry training bodies
- > Manufacturers
- > Importers
- > Retailers and wholesalers
- > Electricity distributors.

Key changes

> Extended application of Residual Current Devices (RCDs) and testing for correct operation

> Protection against arcing faults

> Requirements for selectivity (discrimination) between circuits

> Strengthening of requirements for the prevention of the spread of fire

> Enhanced requirements for recessed luminaires

> Requirements for sanitisation areas in the food processing industry

> Inclusion of detailed guidance material that was removed from the 2000 edition

> More intuitive index, additional appendices, illustrations and background information.

The leading light in installation

To make it easier to use, the new Wiring Rules now comes in two parts, under the one cover:

> **Part One** outlines the fundamental safety principles and provides an 'outcomes oriented' approach to allow flexibility in design

> **Part Two** details 'deemed to comply' solutions for the majority of electrical installation work. Includes explanatory diagrams and technical requirements.

Choose an option that suits you

The New Wiring Rules is now available in PDF, traditional Hardbound, or the popular Paperback edition.

Compliance with the new AS/NZS 3000:2007 will be mandatory

Call 131 242 and get up-to-date now!
